VK-T805 Semi-Automatic Rolling Wrap Around Labeling Machine

The semi-automatic labeler is equipped with a rotating motor and roller for labeling different products and shapes, including flat surfaces, and round or square bottles. As an example, it applies labels to three sides of a honey bottle, or all 4 sides of a tea caddy. By changing the smoothing device, it applies labels to uneven surfaces such as a concave or curved surface. With the use of different jigs, the semi-automatic labeler will also apply labels to irregularly shaped products.

The ribbon printer and industrial inkjet printer are optional. They are used for printing the production date and bath number on labels, combining printing and labeling processes.

Details:

Application:

Technical Parameter:

Model	VK-T805
Labeling Accuracy	±0.5mm
Labeling Speed	15-30 pieces/min
Applicable for product diameter	Length: 20mm-200mm, width: 20mm-180mm, Thickness: 5mm-130mm
Applicable Label Size	Length: 15mm-300mm, Bottom paper width: 25mm-160mm
Device Dimensions	843mm*759mm*895mm
Applicable Power Supply	220V/50HZ
Weight	57KG
Applicable Label Roll Inner Diameter	76mm
Applicable label Roll Inner Diameter	280mm

Main Configuration:

Name	Brand	Origin
Lable Sensor	HYPSEN	USA
PLC	Panasonic/Weikong	Janpan/China
Touch Screen	Samkoon 4.3-inch color screen	China
Cylinder	XINGCHEN	China
Traction Motor	LEISAI	China
Traction Motor Drive	LEISAI	China
Rolling Motor	LEISAI	China
Rolling Motor Drive	LEISAI	China
