VK-T806 Semi-Automatic Double Side Labeling Machine

The semi-automatic labeler is designed for labeling flat bottles, round bottles and square bottles on the front and back side. It requires an operator to manually feed the material and collect labeled products. The production speed is 10 to 30 pieces/minute depending on the operator's skill level.

Change the labeling mechanism, which can be applied to the labeling of the convex plane, a little concave plane, and the arc surface.

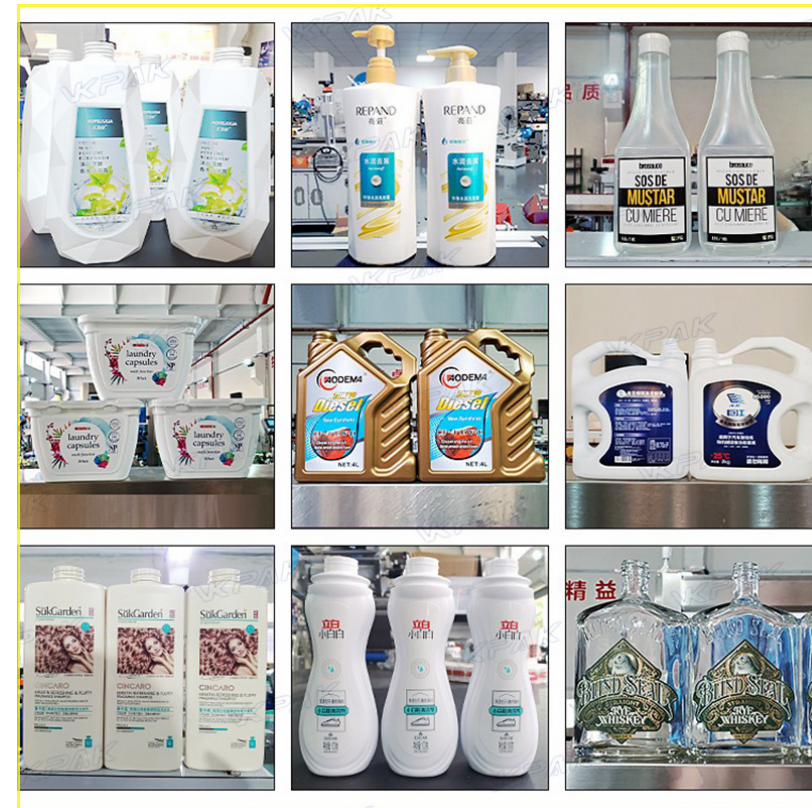

Changing the jig can be applied to labeling of various specifications of bottles and workpieces.

Choose a color-coding machine or inkjet printer, print the production date and batch number on the label, and realize the integration of coding and labeling.

Details:

Application:

Technical Parameter:

Model	VK-T806
Labeling Accuracy	±0.5mm
Labeling Speed	15-30 pieces/min
Applicable for Product Diameter	Length: 50mm-350mm, Width: 20mm-200mm, Height: 50mm-400mm
Applicable Label Size	Length: 15mm-300mm, Bottom paper width: 25mm-175mm
Device Dimensions	1328mm*1049mm*1516mm
Applicable Power Supply	220V/50HZ
Weight	270KG
Applicable Label Roll Inner Diameter	76mm
Applicable Label Roll Inner Diameter	280mm

Main Configuration:

Name	Brand	Origin
Lable Sensor	HYPSEN	USA
PLC	Panasonic/Weikong	Janpan/China
Touch Screen	Samkoon 7-inch color screen	China
Cylinder	XINGCHEN	China
Traction Motor	LEISAI	China
Traction Motor Drive	LEISAI	China
Conveyor Motor	LEISAI	China
Conveyor Motor Drive	LEISAI	China
Power Switch	Delta	Taiwan, China
